

# HAZELTREE SECURITIES FINANCE™

See your true exposures  
and better manage your  
inventory.

- › Current Borrowing Rates
- › Current Lending Rates
- › Indicative Rates
- › Inventory Available
- › Actual Current Transactions
- › Real-time Locates
- › Pay-to-hold (pre-borrow) Inventory

## Find the Best Terms

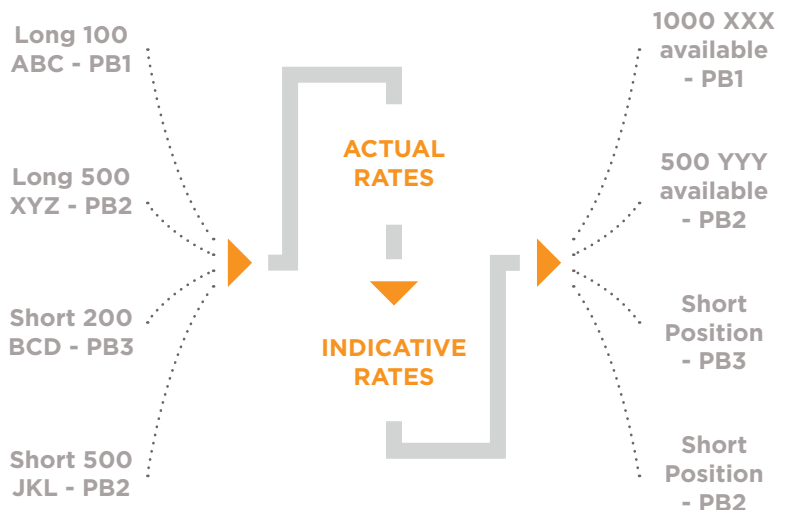

With competition for capital increasingly intense, you need clarity across your counterparties to strengthen your negotiating position and efficiently manage your inventory.

Hazeltree Securities Finance gives you transparency across counterparties, enabling you to assess current and indicative rates, manage your inventory, and reconcile your positions.

- › Locate securities available to borrow
- › Compare rates and select the best projected revenue options
- › Understand true P&L by easily allocating borrowing costs to individual positions
- › Manage short positions across prime brokers (general collateral and 'hard to borrows')
- › Manage pre-borrow inventory

## Measure and Manage Costs

By knowing your true costs, and where you can reduce them, Hazeltree enables you to measure results on a position-by-position basis. Aggregating information across counterparties, and filtering it by portfolio, individual trader, and position, gives you a clear picture of your P&L.

## HAZELTREE SECURITIES FINANCE

Know what you're paying to your counterparties...and what you could be paying.
